Education

Democritus University of Thrace

2023 - Now

PHD CANDIDATE, DEPT. OF COMPUTER SCIENCE

- Software-Defined Network Techniques for Orchestrating and Protecting Industrial Internet of Things

University of Western Macedonia

2012-2017

M.ENG. (5 YEARS OF STUDY), DEPT. OF INFORMATICS AND TELECOMMUNICATIONS ENGINEERING

- Game Theory on XG-PON networks: <https://dspace.uowm.gr/xmlui/handle/123456789/835>.
- Graduation Grade: 8.2/10.

Experience

K3Y Ltd.

JAN 2026 - NOW

SENIOR NETWORK AND SECURITY ENGINEER

- Researcher for EU-funded programmes: XTRUST-6G, SALUS, CASTOR, ENFORCE, IRONPLAN EDF, SECASSURED, CIPHER, CIRCAT, SecQdevOps.
- Product Manager & Developer for K3NetOrchestra: A security policy orchestrator enforcing zero-trust by leveraging OpenFlow and Kubernetes/Cilium.
- Product Manager & Developer for K3CyberRadar: An AI-powered SIEM platform integrating threat detection and vulnerability management.
- Research topics: Industrial IoT, Cybersecurity, Software Architecture & Development.

Metamind Innovations P.C. (MINDS)

APR 2024 - NOV 2025

ASSOCIATE RESEARCHER

- Researcher for EU-funded programmes: D-HYDROFLEX HE, NERO Digital Europe.
- Product Manager & Developer for the MINDS SDN Controller & Dashboard: An OT SDN solution that leverages OpenFlow to introduce security policies on OT networks.
- Product Manager & Developer for the MINDS Radar: A SIEM platform based on Wazuh, integrating custom AI-based OT detectors.
- Research topics: Digitalisation and Cybersecurity on Hydro Power Plants.

Public Power Corporation S.A.

MAY 2018 - NOV 2025

CONTRACTOR / RESEARCHER

- Researcher for European research programmes (SPEAR H2020, SDN-microSENSE H2020, TERMINET H2020, ELECTRON H2020, Jaunty Erasmus+, AI4CYBER HE, DYNABIC HE, PHOENIX HE, EV4EU HE).
- Software architect & developer of an OCPP 1.6/2.0.1 / OCPI charging station management system: <https://github.com/EV4EU/ov2xmp>.
- Conceptualisation, design, implementation, and administration of the Industrial Internet of Things (IIoT) Laboratory of PPC Inspectra.
- Design, deployment and configuration of industrial networks for pilot demonstrators (SCADA, PLCs, smart meters, EV chargers).

IEK ALFA (Vocational school)

OCT 2018 - JUN 2019

TEACHER

- Instructor for the following courses: Computer Networks, Network Security, Mobile Networks, Operating Systems, Data Communications, Network Administration, Object-Oriented Programming (C++), Telecommunications.
- Lectures available on GitHub: <https://github.com/cdalamagkas/cs-lectures-gr>

Professional Certifications

Cisco Certified Network Associate (CCNA)

JUL 2019

Skills

Computer Networking
Programming
Virtualization
DevOps
Cybersecurity
Industrial IoT
Telecommunications
Miscellaneous
Languages

Cisco IOS, Open vSwitch, ArubaOS-Switch, OpenFlow, Python Ryu.
Python, JavaScript, Django, MATLAB, Java, C/C++.
Proxmox VE, XCP-ng.
Docker, GitLab CI/CD, GitHub Actions.
pfSense, OpenVPN, Python Scapy, Wazuh, OIDC, PKI.
Modbus TCP, OCPP 1.6-J, MQTT, DLMS/COSEM.
ITU-T PONs, Simulation (OMNeT++, GNS3).
Troubleshooting, Horizon Europe Project Management, Office Suite, LaTeX.
Greek (native), English (C2), German (C1).

Voluntary Activities and Memberships

University of Western Macedonia

MAR 2016 - 2018

AUTHOR OF EDUCATIONAL MATERIAL

- Author of original education material for the course "Network Design": <https://github.com/cdalamagkas/network-design-labs>
- Curriculum includes Cisco and Mikrotik routing and switching.

Institute of Electrical and Electronics Engineers

SEPT 2013 - NOW

IEEE MEMBER
